HEPATITIS C

Annual (January 1 - December 31, 2008)
Hepatitis C (HCV) Case Reports by County

NOTE:

Data are provisional and should be finalized later in 2009.

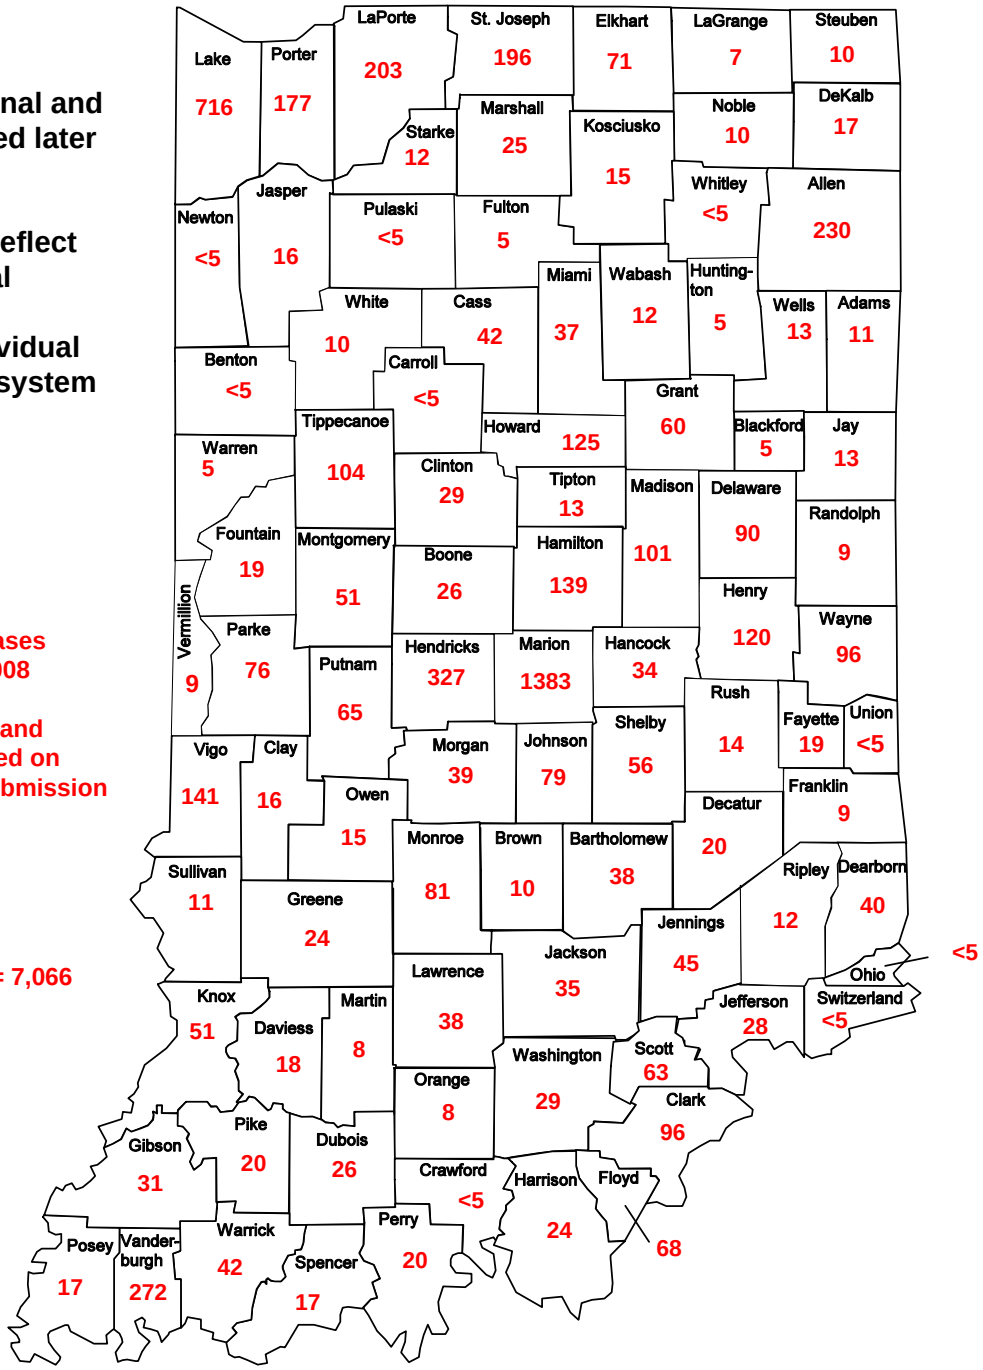
HCV cases may reflect county of medical provider and not residence of individual due to reporting system limitations.

Label definition:

County Name

Top: Hepatitis C Cases reported in 2008

Suspected, probable and confirmed cases based on case investigation submission

State of Indiana:


Reported in 2008 = 7,066
