Dear Jennifer:

This letter is to notify you, pursuant to any possible requirement that might exist under the Worker Adjustment Retraining and Notification ("WARN") Act, that Northrop Grumman Technical Services, Inc. (the "Company") has extended the WARN notices previously issued to employees who work at, or report to, MCTSP facility located at 7105 NW 70th Avenue, Johnston, IA 50131 (the "Facility").

The MCTSP contract, under which the Company provides services to the Army National Guard, was set to expire March 30, 2015. The MCTSP contract is being recompeted, and the Company has submitted a proposal for the follow-on work. If the Company is not awarded the work, all employees on the MCTSP contract will be laid off. The Company issued WARN notices on February 4, 2015 to all affected employees on the contract notifying them of their expected termination date of March 30, 2015 should the Company not be awarded the follow-on work.

The government has since notified the Company that they are extending our contract through April 29, 2015. Therefore, the Company has extended the WARN notices to reflect the extension of the contract to approximately 59 employees, who are expected to be terminated during the period of April 29, 2015 to May 13, 2015.

The Company does not recognize "bumping rights" that would allow an employee to displace another employee based on seniority.

The information contained in this letter is based on the best information available to the Company at this time. Should you have any questions concerning this notification or this organizational restructuring, please contact me at the below-listed telephone number. Media inquiries should be directed to Michelle Bohlen at (443) 558-5067.  
Sincerely,

Derek Stidham  
Program Manager
